QST@CGS International – Login and Log Out

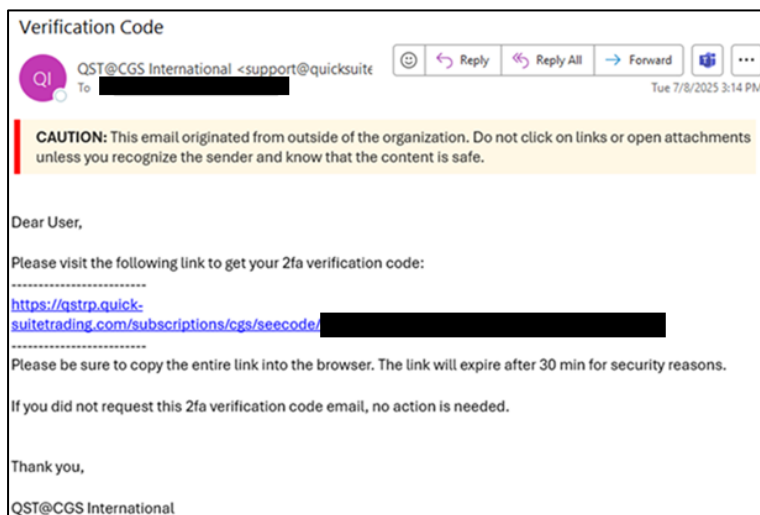

1. Open the QST Application or QST Mobile.

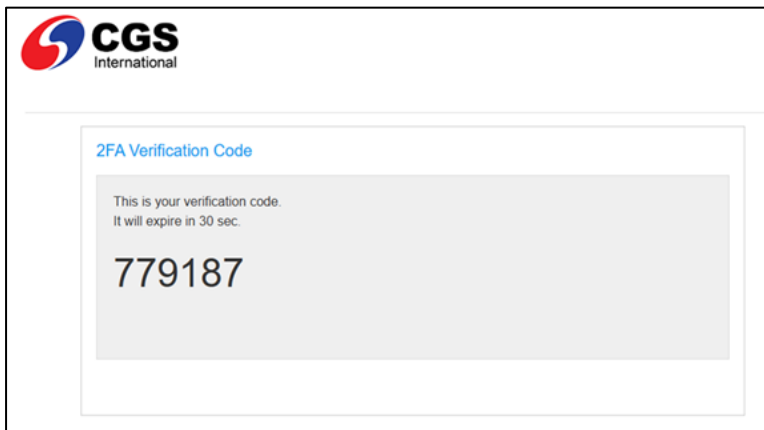

2. Enter username, password and 2FA code. There are two ways to generate the 2FA code.
 - i. open google authenticator and enter the code from google authenticator (please refer to 2FA setup for more information).
 - ii. click on the “2FA” and “@” button on QST application or “Request Code” button on QST Mobile as shown below to generate 2FA verification code.

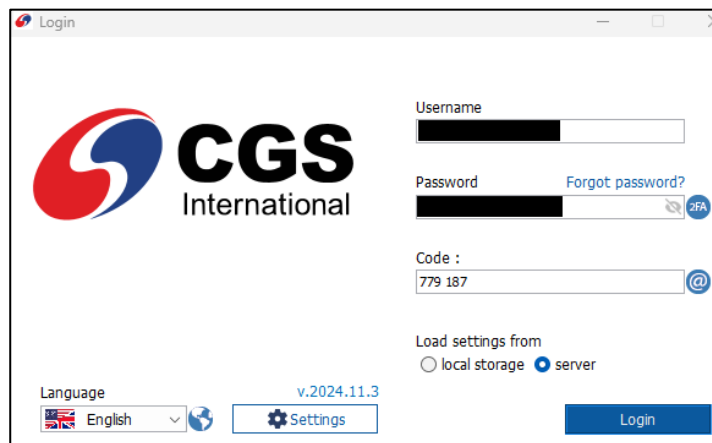

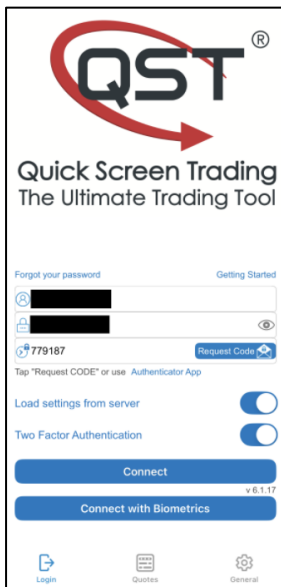

- iii. You will receive an email titled Verification Code, click on the link in the email to generate the 2FA verification code.

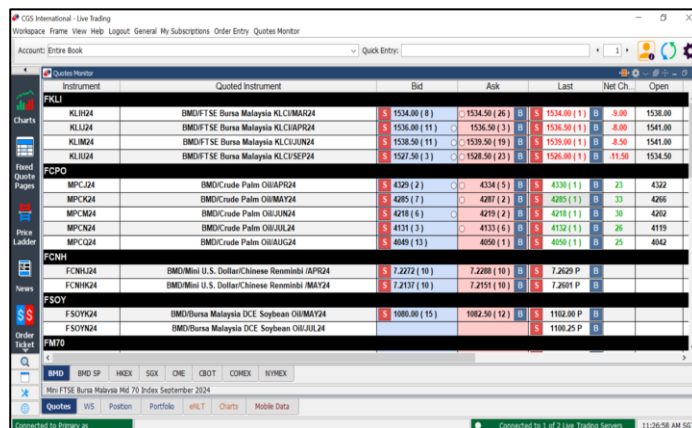

- iv. 2FA Verification code will be generated and will expire in 30 seconds.

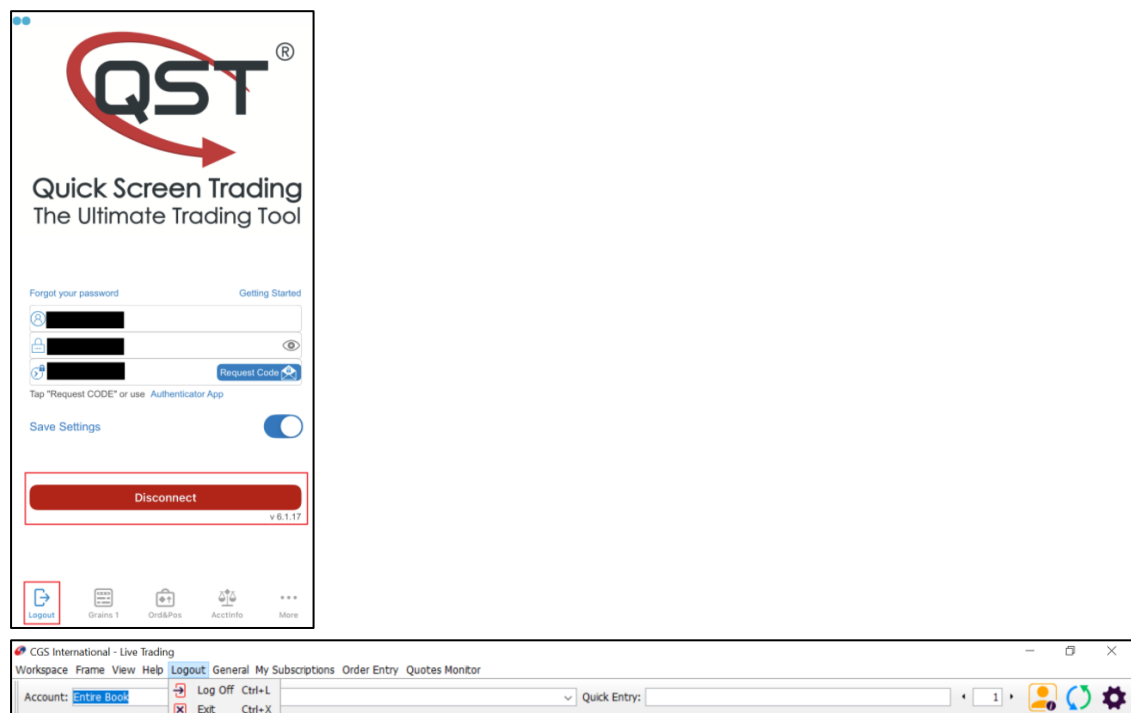

Enter the 2FA verification code to QST login page.

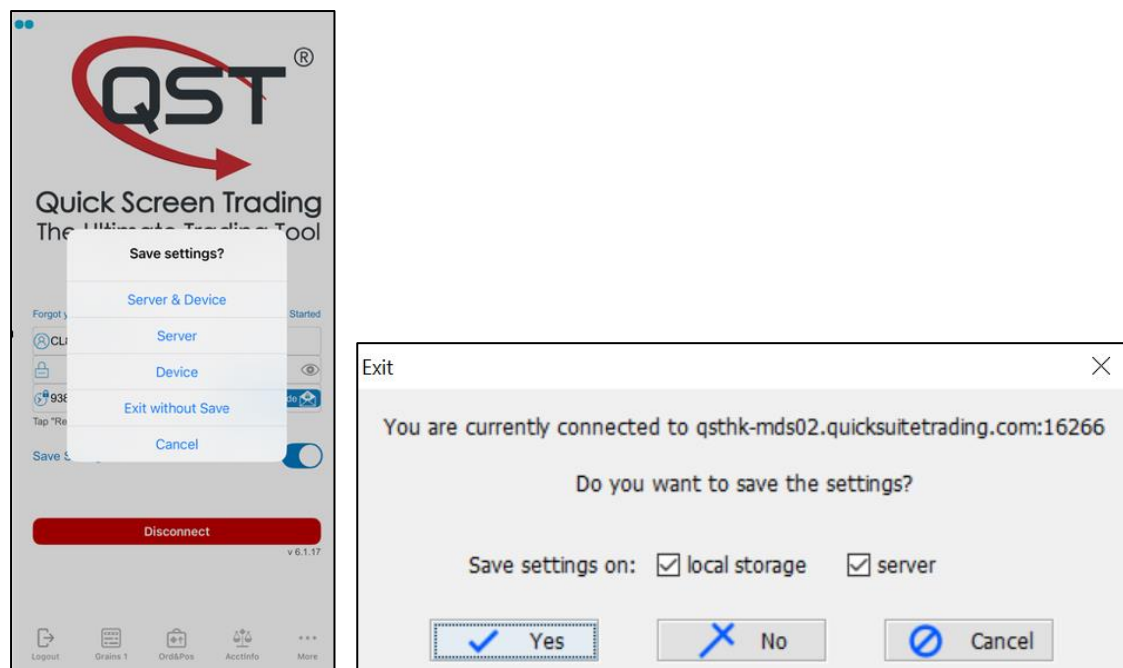

6. Login successfully

7. Select “Logout” – “Exit” / “Disconnect” to proceed with system logout.

8. Save your settings under local hard drive & server before proceeding with the system logout.

Remark: Alternative price feed server & port as below:

HK price feed IPs & Ports

The screenshot shows the 'Server Settings' dialog box with the 'HTTP Proxy' tab selected. The 'Data Center' is set to 'HK' (selected with a radio button). The 'Enable Load Balancing' option is checked. Two server entries are listed: 'qsthk-mds01.quicksuitetrading.com' with port '16166' and 'qsthk-mds02.quicksuitetrading.com' with port '16266'. The 'Send heartbeat every' dropdown is set to '5 sec'. The 'Ok' button is highlighted with a blue checkmark, and the 'Cancel' button is disabled with a blue X.

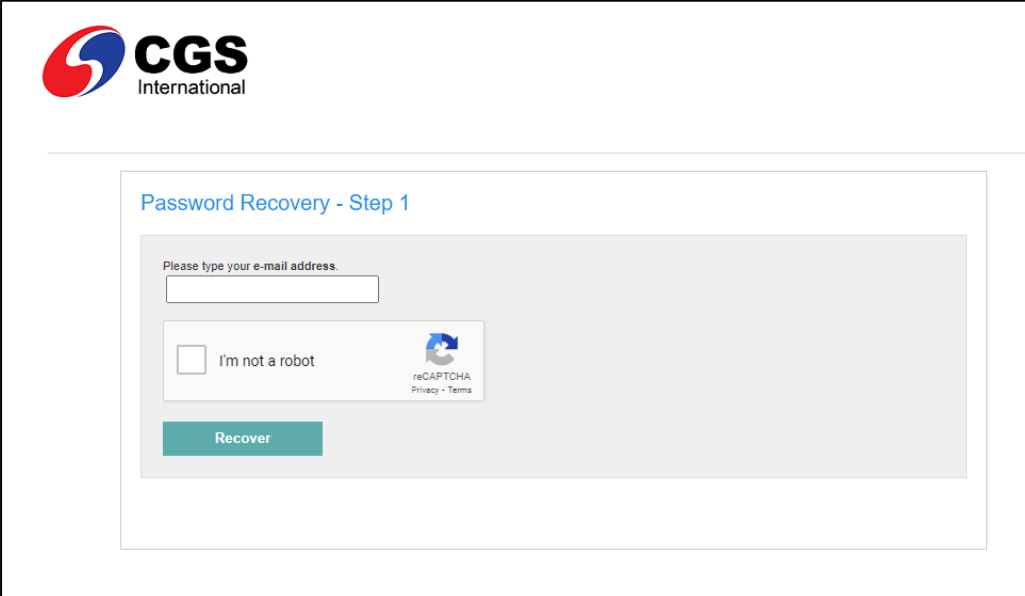

KL price feed IPs & Ports

The screenshot shows the 'Server Settings' dialog box with the 'HTTP Proxy' tab selected. The 'Data Center' is set to 'KL' (selected with a radio button). The 'Enable Load Balancing' option is checked. Two server entries are listed: 'qstkl-mds01.quicksuitetrading.com' with port '16166' and 'qstkl-mds02.quicksuitetrading.com' with port '16266'. The 'Send heartbeat every' dropdown is set to '5 sec'. The 'Ok' button is highlighted with a blue checkmark, and the 'Cancel' button is disabled with a blue X.

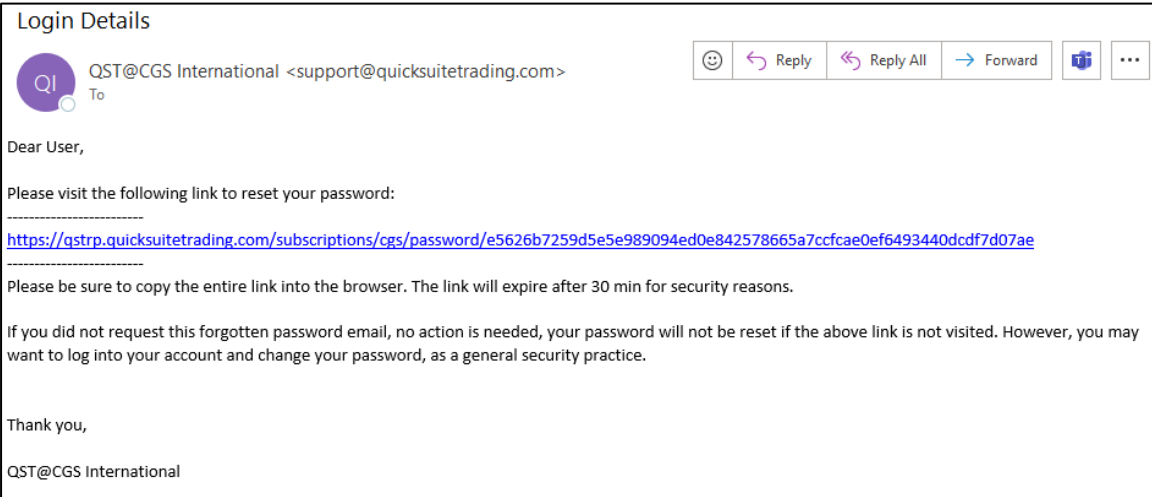

QST@CGS International - Reset Password Guide

1. To reset password, please click on the password reset link and fill in your registered email address in password recovery page.

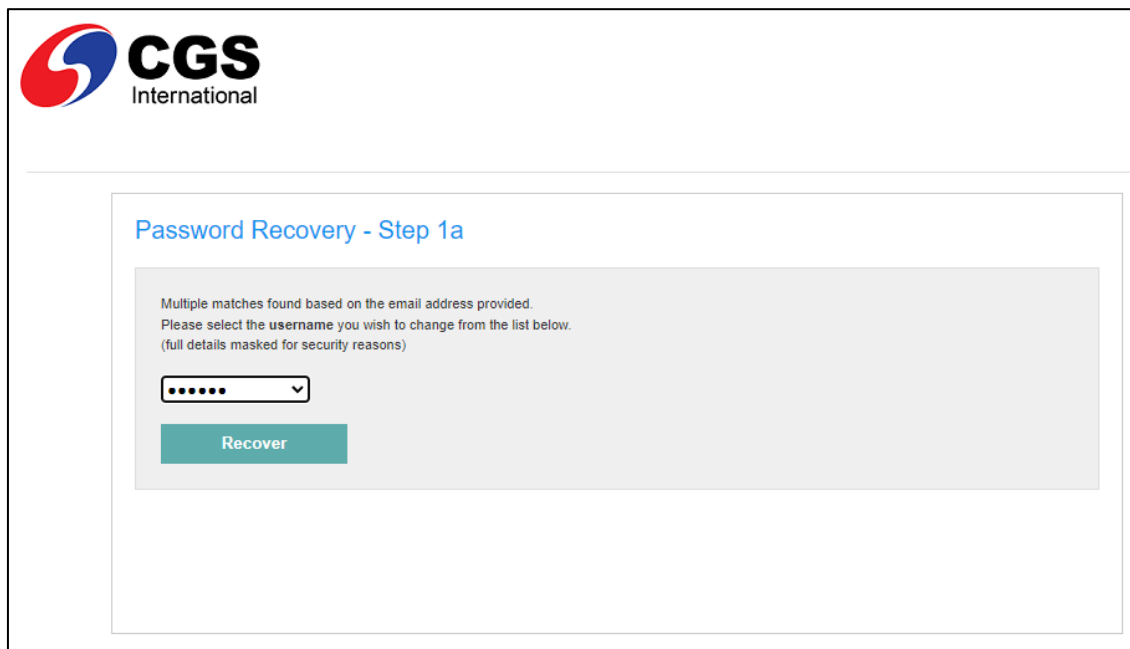

Password reset link <https://qstrp.quicksuitetrading.com/subscriptions/cgs/password>

2. An email will be sent to your registered email address, click on the password reset link again.

3. Select your QST ID with CGS International and click 'Recover'.

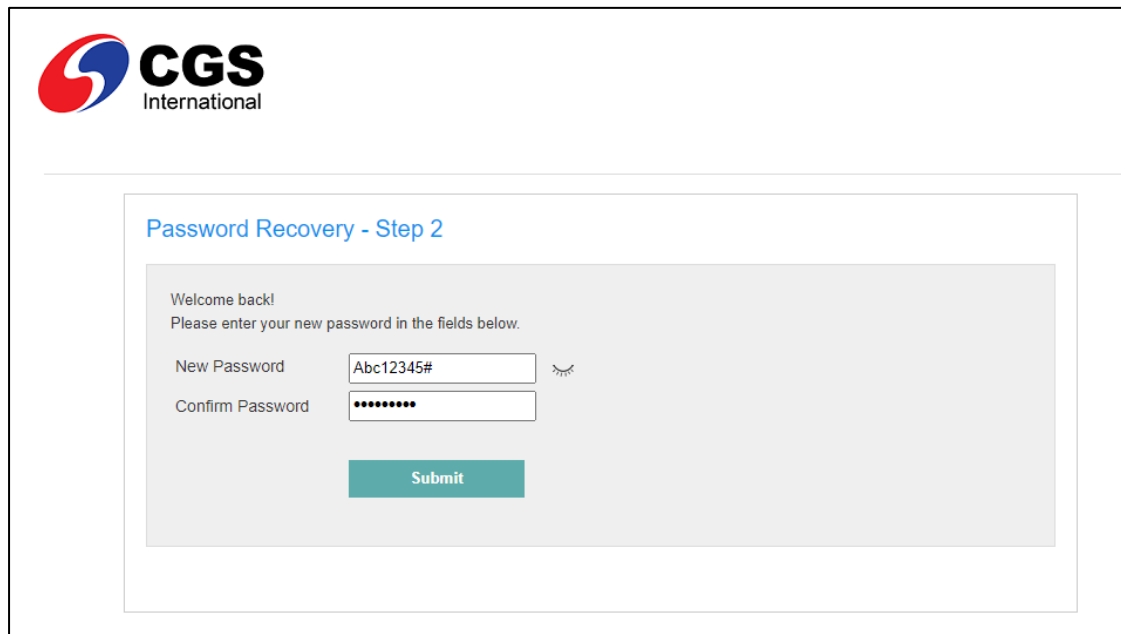

The screenshot shows the CGS International logo at the top left. Below it, the heading "Password Recovery - Step 1a" is displayed in blue. The main content area has a light gray background and contains the following text: "Multiple matches found based on the email address provided. Please select the username you wish to change from the list below. (full details masked for security reasons)". Below this text is a dropdown menu with five dots and a downward arrow. A teal "Recover" button is positioned below the dropdown.

4. Fill in your new password and click 'Submit'.

(Remarks: Your password combination must comprise of at least: one uppercase letter, one lowercase letter, one number and one symbol)

Password example: **Abc12345#**

The screenshot shows the CGS International logo at the top left. Below it, the heading "Password Recovery - Step 2" is displayed in blue. The main content area has a light gray background and contains the following text: "Welcome back! Please enter your new password in the fields below." Below this text are two input fields. The first field is labeled "New Password" and contains the text "Abc12345#". The second field is labeled "Confirm Password" and contains five dots. A teal "Submit" button is positioned below the input fields.

5. Once submitted, you will see this notification and you may proceed to login to QST trading application using the new password.
